Nicole Schnepf informed us about the delivery of the company vehicle. It was obviously done without us and in consultation with Andre Urban. Andre Urban is tenant of a music rehearsal room in the basement at Vorthbach 22 in Bottrop. It seemed that they together informed the VW dealer to deliver the vehicle there.

We are unable and uninformed about the status of this car. This disables us to agree and taking it back in uncertain conditions.

This location reflects their intention to use the local towing company Mundstock GmbH. They are connected with the municipal traffic police. On this way there is a visible connection between Andre Urban his wife Alexandra and Susanne Ohde, formerly known as an employed Traffic Officer. From there a connection is established to what was done to our other car (see here [GB10008](#))

The local police was informed to proceed as described.

VW-Dealer Ms Nina Schmitz in Gladbeck was informed via eMail. We exactly pointed out where our company vehicle must be brought back.

It is still not acceptable that they celebrate ongoing different decisions to what was communicated.
